Protos® Integral "Type Realsim®"
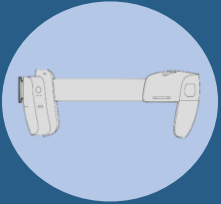

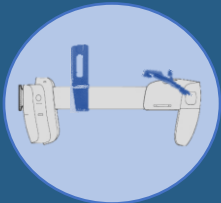

Product information

Protos® Integral Industry

The modular principle means that the Protos® Integral Industry can also be upgraded for further applications at any time. One product for many applications.

Microsoft® Hololens 2

Click system

The Microsoft® Hololens 2 data glasses are very easily clicked into the Protos® with the attachments.

Protos® Integral "Type Realsim®"

A combination of helmet and HoloLens 2: the innovative "click system" allows for the addition of data glasses, as well as their removal.

Customized

Protos® can be delivered in many color combinations and with decals. Likewise, they can be ordered with additional features, suchas hearingprotection or Bluetooth.

Certificate

EU Type Examination Certificate
according to test standard: **397:2012**
